# PORON® Microcellular Polyurethanes

# ORDER GUIDELINES, TERMS, AND POLICIES

**Order Placement** – Orders will be accepted by phone, e-mail or fax, but errors in transmission are the customer’s responsibility. Phone orders require a written confirmation either via mail or fax. The order must be clearly marked “Confirming” or the cost due to a duplicate shipment will be the customer’s responsibility. Orders for PORON Condux Plus materials require a forecast in advance of order placement.

**Order Acknowledgment** – All orders are subject to written acceptance at all Rogers Corporation locations for adherence to these guidelines and policies as well as all other “standard terms and conditions of sale”. A copy of the Rogers’ standard terms and conditions of sale is available upon request. Rogers Corporation will normally confirm orders within 24 hours or less.

**Minimum Order Size** – An order minimum of three standard rolls per line item applies for Major Converters and Converters. An order minimum of one standard roll per line item applies to Preferred Converters. A three roll minimum applies for all levels when ordering PORON® VXT® products.

**Blanket Orders** – Single product blanket orders will typically be accepted with a maximum of three (3) releases within ninety (90) days, provided each release meets the line item minimum order size. Additions to blanket orders are subject to approval. An appropriate shipping schedule must accompany the order.

**Shipping and Handling** – In North America, customers may choose a preferred carrier. If specific shipment instructions are not chosen, an appropriate means of shipment will be selected. Third party billing instructions must be stated on the original Purchase Order or the shipment will automatically be shipped collect. Customers may take advantage of Rogers Corporation house carrier discount. Materials will be shipped pre-paid and added to the invoice. A 20% fee may be charged for drop shipping. In Europe, all orders are shipped Delivered Duty Paid (DDP) with Rogers own carrier. In Asia, customers may also take advantage of Rogers Corporation house carrier discount. Materials will be shipped pre-paid and actual freight will be added to the invoice.

**Payment Terms** – Terms of payment are customer specific and set by Rogers Finance Department. All prices are listed in U.S. dollars and are noted for measurements shown.

**Sample Policy** – Standard sample sizes are 8.5” x 11” sheets (maximum 10), A4 size sheets in Europe and Asia (maximum 10) or 3 ft linear roll (maximum 2, not available for Dura-Shape products) or mini rolls (maximum 1) per line item. Larger samples may be requested, but may be subject to a surcharge. Condux Plus samples are limited to 8.5” x 11” sheets (maximum 2). Contact the Rogers Solutions Center at 800.935.2940 or email solutions@rogerscorp.com.

**Availability of Standard Materials** – All products shown within this list are considered “standard materials”. Most PORON urethane materials are produced on a “make to order” basis. Normal lead times apply, although off-the-shelf stock may be available for standard grades and thicknesses. Check with Rogers’ Customer Service for your specific requirements.

**Tolerances** – Length tolerance of rolls shipped is +5%/-0% of ticketed length. A maximum of one splice is allowed per roll. Most PORON urethanes are trimmed to stated width +1 inch/-0. Special notation is made after the width, “U”, for materials that are provided untrimmed. Untrimmed materials will be fractionally wider than the stated width. The stated width is the amount of good material charged for. Untrimmed materials are also available on special order. Thickness tolerances for materials are listed on individual product Data Sheets.

**Supported Materials** – Standard supported materials are offered on 2 mil (.002” or 0.05mm) polyester (PET) film. The bond of the foam to the film will be permanent.

**Surface Preparation** – All standard unsupported PORON materials are “printed” with acrylic coating on both sides for your ease of handling. PORON urethanes may be available printed on one side for specialty applications. An increase in blocking may be experienced with material printed on one side only. All standard supported PORON materials are “printed” with acrylic coating on the non-PET side.

**Buffing** – Many PORON urethanes can be buffed to remove the skin. Buffed thickness tolerance are ±5% on thicknesses down to 0.080” (2mm) and ±0.004” (±0.01mm) on thicknesses less than 0.080” (2mm). Buffed materials are subject to higher minimum order quantities, upcharges, and lead times. The minimum order quantity for buffing follows the non-standard ordering guidelines below. Materials requiring buffing or any other secondary operation are subject to an additional one week lead time.

**Availability of Non-Standard Materials** – For available non-standard thicknesses, densities and widths call Rogers Customer Service. To obtain a non-standard color (for available colors, see color card) ask Rogers Customer Service. Custom colors are available and are subject to higher minimum orders and color matching charges. Non-standard materials will incur an upcharge (for orders less than 10,000 ft<sup>2</sup> (929m<sup>2</sup>) in North America) based upon the following minimum order quantities:

Condition	Non-Standard MOQ Level 1	Non-Standard MOQ Level 2
All Products	3,000 ft <sup>2</sup> (279 m <sup>2</sup> )	5,000 ft <sup>2</sup> (465 m <sup>2</sup> )

**Jumbo Rolls** – Jumbo rolls of increased roll length are available upon request for most materials. Contact your local sales engineer or Rogers Customer Service with specific requests.

**Cancellation** – A cancellation charge will be applied if manufacturing of a material has been started, completed or where special raw materials have been purchased. If the material is deemed resalable, a 15% restocking fee may be applied. If the material is deemed not resalable, a full (100%) cancellation charge will apply. Cancellation charges will not apply if: (1) the order has not been scheduled. (2) the order has been scheduled but no special material or labor costs have been incurred. In Europe, cancellation requests are treated on a case by case basis.

**Product Complaints** – Product complaints should be directed to Rogers’ Customer Service. A response will be provided in a timely fashion.

**Technical Assistance** – In North America, contact the Rogers Solutions Center at 800.935.2940 or email solutions@rogerscorp.com, or call your local Rogers Sales Office for information on products or capabilities. In Europe, contact Rogers BVBA at 32.9.235.3611 or your local Rogers Sales Office. In Asia, contact your local Rogers Sales Office.

**Overshipment or Undershipment** – All standard materials (noted on this list), are subject to a ±5% shipment of total volume. If exact quantity is required, please note at time of order. All non-standard materials are subject to a ±10% shipment of total volume. Non-standard materials are classified as non-standard roll lengths, thicknesses, widths, or colors, and value-added operation materials.

**Returns** – Rogers Corporation must be notified within 30 days of shipment regarding product non-conformances. Rogers Customer Service must issue a Return Material Authorization, after which the customer has 30 days to return product for credit. Returned materials must be properly packaged to prevent damage, and must carry lot numbers. Rogers Corporation reserves the right not to accept returned materials if they are damaged. The following conditions apply:

\* All returns are subject to approval. Standard, conforming product being returned may be subject to a restocking fee of 15% of the purchase price and the customer is responsible for freight costs.

\* Non-Standard materials will not be accepted unless it is a quality issue, and is approved for return. Customarily a sample of the defective material will have to be sent to obtain approval.

PORON® Cellular Polyurethane foams offer a broad range of design solutions for gasketing, sealing and energy absorption. Low compression set and low outgassing features make these foams ideal for applications in telecommunications, automotive, electronic, and other industrial market segments.

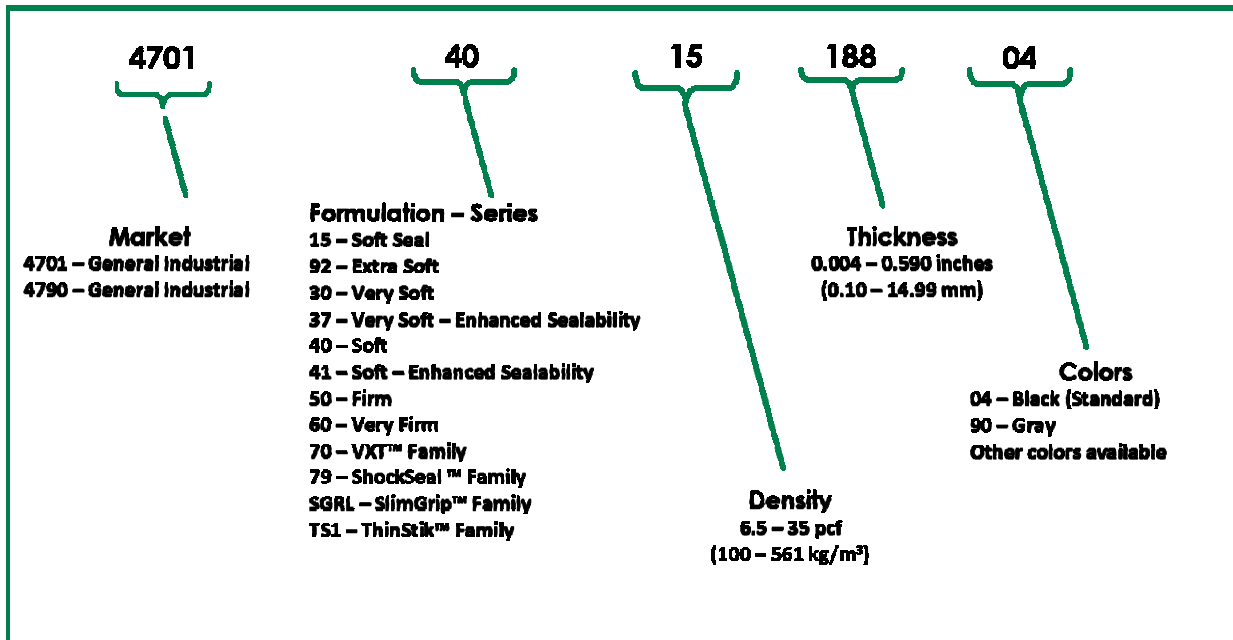

PORON Polyurethanes are flexible, high density, microcellular products that offer design engineers many outstanding features. PORON foams maintain excellent resistance to compression set, exhibit high resiliency, provide good vibration damping and impact absorption. Parts made from PORON foams continue to perform after constant and repeated deflection. Components will not loosen and gasketing integrity will be maintained.

**KEY FEATURES / BENEFITS**

- Excellent compression set resistance for durable, long-term performance.
- Meets several flammability requirements including MVSS 302 and UL HBF.
- Excellent performance over a broad temperature range (-40°C to 90°C).
- Quality manufacturing provides consistent easy-to-process roll goods.
- Low-outgassing prevents component fogging, corrosion, and embrittlement.
- Available in many densities, thicknesses, and surface finishes, providing wide design latitude.
- Good chemical resistance.

**PRODUCT IDENTIFICATION**

The information contained in this product availability booklet is intended to assist you in designing with Rogers’ PORON polyurethane foams. It is not intended to and does not create any warranties, express or implied, including any warranty of merchantability or fitness for a particular purpose or that the results shown on the product availability booklet will be achieved by a user for a particular purpose. The user is responsible for determining the suitability of Rogers’ PORON foams for each application.

## World Class Performance

Rogers Corporation (NYSE:ROG) is a global leader in engineered materials to power, protect, and connect our world. With more than 180 years of materials science experience, Rogers delivers high-performance solutions that enable clean energy, internet connectivity, and safety and protection applications, as well as other technologies where reliability is critical. Rogers delivers Power Electronics Solutions for energy-efficient motor drives, vehicle electrification and alternative energy; Elastomeric Material Solutions for sealing, vibration management and impact protection in mobile devices, transportation interiors, industrial equipment and performance apparel; and Advanced Connectivity Solutions for wireless infrastructure, automotive safety and radar systems. Headquartered in Arizona (USA), Rogers operates manufacturing facilities in the United States, China, Germany, Belgium, Hungary, and South Korea, with joint ventures and sales offices worldwide.
